

Glossop 10

10 miles, 1,000 feet of ascent, 1 lap. Years Active 1996 to 2005.

Information courtesy of Nev McGraw, Tony Hillier, Jeroen Peters and Des Gibbons...

Organised by John Brightmore, the Glossop 10 replaced the Glossop Half Marathons, and ran in June between 1996 and 2005. It was well known for its “killer climb” on the between 7 and 8.5 miles, as the route climbs away from the reservoirs and back towards Glossop.

Attached are results from 1996, 97 and 99. Based on these results, the fastest time was set by G. Hill of Stockport harriers in 1997 with a time of 55:58. In the same year, the fast women’s time was set by Tricia Sloan of Salford Harriers, in 64:59.

The route starts and finishes in Manor Park, in the middle of the main field. The route exits the park onto Church Close to the North, and turns west along Church Street to the B6105, Woodhead Road. The B6105 is followed North then Eastwards as far the Longdendale Trail intersection near Reaps Farm. Turning almost back on yourself, the Longdendale Trail is then taken Westward for just under a mile, before the route drops down and crosses Rhodeswood Dam. Turn left down the zig zags, and Westward along the tarmac road to the North of Valehouse Reservoir, following this all the way past the Waterworks Offices, to the mini roundabout at the intersection of the A628 Woodhead Pass. An about turn takes place at the roundabout, descending back down the road, but this time going over Valehouse Dam. Turn left along the South shore of Rhodeswood Reservoir, and up the steep uneven climb, before continuing uphill on Summerhouse Lane to Padfield Main Road. Take a left, and re-join the B6105, turning right and retracing your steps as far as Church Street. Now enter the West of the park going South down the tarmac passage, passing the skatepark on your left, onto Corn Street to the A57. Turn left and left again onto Manor Park Road, and re-enter park through the main entrance to the starting point.
